Features

80 Volt System Offering Powerful Performance

The 80 voltage 2*5.0 kW dual drive motors offer higher power efficiency than regular 48 voltage, thus the TVL series has greatly enhanced its productivity of 6 working hours per charge.

Large Workspace

Due to the compact size of EP lithium battery and the ergonomic configuration of the control levers and the foot brake pedal, the small truck offers spacious legroom of 394mm and delivers the best in operation comfort.

Compact Truck Size

The TVL series features a small turning radius, 1450mm of CPD15TVL, 1550mm of CPD18TVL and 1585mm of CPD20TVL , which makes it a perfect workhorse for small warehouses with narrow aisles within 3.5 m.

Integrated Charger

The TVL series forklift comes with a EP Li-Ion battery and a 35A single phase integrated charger with 16 amp plug allowing the truck to be charged at any power outlets (except 10A and 13A civil plug in Switzerland and England).

Enhanced Mast with Optimal Visibility & Stability

The TVL series adopts the same high-strengthened mast of CPD20L2, offering the best all-around visibility and great stability with less wobbling even fully loaded.
